## SODIUM FORMALDEHYDE BISULPHITE POWDER

---

Form Supplied:  
TECHNICAL

CAS-No.: 870-72-4  
EC No.: 212-800-9

Empirical formula :  $\text{NaHSO}_3 \cdot \text{HCHO} \cdot 1/2\text{H}_2\text{O}$

Description: white powder

Specification:

Appearance:	conforms with product description
Assay (calculated)	min. 95.0%
pH of a 40% Solution	5.5 – 9.5
Water content	5% max
Water insolubles	0.5% max
Iron as Fe:	10 ppm maximum
Heavy Metals:	25% ppm maximum
Chloride as Cl:	50 ppm maximum

Specification values are subject to constant monitoring

Standard packing and Storage:

25 kg. 25 kg. Open Top Bags with a polythene liner  
Other packing can be available dependant on customer requirements
